PROFESSIONAL PROFILE

High-performance Sales Leader with a B.Tech in Mechanical Engineering and a track record of driving double-digit revenue growth across both telecommunications and industrial manufacturing sectors. Expert in systematic territory penetration, utilizing engineering logic to optimize complex supply chains, streamline sales funnels, and lead high-output field teams. Specialized in diverse B2B solution architecture—spanning international physical distribution to digital infrastructure (Fiber, IoT, SaaS)—and aggressive churn mitigation. A "Player-Coach" who excels at building high-accountability cultures, auditing competitor vulnerabilities, and closing high-stakes enterprise contracts across multiple markets.

LANGUAGES: English, Hindi, Punjabi, Urdu.

WORK EXPERIENCE

REGIONAL SALES MANAGER

JANUARY 2024 – CURRENT

Kmoon Inc. – CALGARY, ALBERTA

- Mapping out high-density industrial parks and commercial zones to execute 15+ "cold" daily walk-ins, while strategically positioning a 4-person field team to maximize regional coverage and eliminate lead overlap.
- Performing line-by-line audits of competitor invoices (Bell/Telus) to expose hidden fees, while auditing the team's proposals to ensure they are maximizing Rogers' ROI and value-based messaging.
- Building complex, multi-product solution stacks (Fiber, Wireless, IoT) and joining team members on final-stage closing calls to provide the "managerial weight" needed to sign multi-year Service Level Agreements (SLAs).
- Managing the team's contract lifecycle to trigger "pre-emptive" renewal strikes 6 months before expiration, successfully neutralizing competitor poaching and upselling into 5G or managed security services.
- Personally, I oversee "Day 1" installations for high-value accounts and acting as the primary escalation point to resolve technical or billing friction before it impacts the relationship.
- Maintaining a "no-fluff" CRM environment in Salesforce, holding weekly 1-on-1 funnel reviews with all 4 reps to ensure forecasts are based on signed intent rather than "hopeful" prospecting.

JUNIOR MANAGING PARTNER (Field Sales)

SEPTEMBER 2022 – December 2023

EXECUTIVE ACQUISITIONS – CALGARY, ALBERTA

- Assist in recruiting and onboarding new team members as the company expands.
- Lead by example with high-performance standards, ethical selling, and professional conduct in the field.
- Assist in conducting team huddles, performance reviews, and motivational sessions.
- Educate potential customers on available promotions and service options, providing excellent product knowledge and personalized recommendations.
- Actively participate in door-to-door field sales, promoting Rogers products and services (e.g., internet, TV, wireless).
- Close sales, and consistently meet or exceed daily, weekly, and monthly targets based on warm leads provided.
- Mentor and support new sales representatives through ride-along, coaching, and ongoing training.

TERRITORY ACCOUNT MANAGER

MAY 2020 – DECEMBER 2022

OSCAR METALCRAFT PVT. LTD. – LUDHIANA, INDIA

Directed B2B sales and regional distribution strategies for industrial metalcraft, leveraging a mechanical engineering background to align complex manufacturing specifications with commercial client requirements. Managed the end-to-end sales cycle and optimized supply chain logistics, successfully negotiating high-value contracts while reducing fulfillment delays. Expanded territory footprint and maintained high client retention through targeted market analysis, competitor evaluation, and distributor training programs

TECHNICAL SKILLS

Engineering/Tech: Microsoft Office, Quality Control, Process improvement, Operation Management, Network Configuration & Troubleshooting, Fiber Optics Installation & Splicing, Home Automation Systems, IoT Device Integration, Problem Solving/Critical Thinking.

Soft Skills : Outstanding communication skills, Close attention to detail, Strong organizational skills, ability to stay calm in emergencies, determine persuasive selling

ACADEMICS

AUGUST 2022

GRADUATE DIPLOMA IN PROCESS QUALITY ENGG, CONESTOGA COLLEGE, WATERLOO, ONTARIO
